

Filip Wachowiak

I love **Frontend** and **TypeScript**. I like challenges and solving impossible problems. Manageable and readable code is the first step to a great UX.

WORK EXPERIENCE

Chili Piper Inc. — Frontend Tech Lead

APRIL 2022 - PRESENT

I led a frontend team of 3 people. We developed a new product from scratch. I was responsible for the design system rewrite. It required close collaboration with designers while trying to deliver consistency and the best DX without sacrificing UX and accessibility

Chili Piper Inc. — Frontend Engineer

MAY 2021 - APRIL 2022

I developed features for an existing but unreleased product. Greatly improved tooling and DX for the frontend team. Migrated bundler from Webpack to Vite and visual regression testing from Percy to Chromatic

Codility Ltd. — Task Creator

AUGUST 2020 - MAY 2022

I created over 20 recruitment tasks checking knowledge of JavaScript, React, TypeScript, CSS, HTML, Python, and Rust. If you're using Codility, there's a good chance you saw some tasks created by me

Blue Owl Sp. z o.o. — Web Developer

JULY 2018 - NOVEMBER 2020

I mainly created custom WordPress themes. I've rewritten the Blue Owl website from scratch using Gatsby while exposing WordPress as a CMS to the admins

EDUCATION

Technical School of Communication, Poznań — IT Technician

SEPTEMBER 2017 - MAY 2021

PROFESSIONAL PROJECTS

Blue Owl - Homepage — React, Gatsby, WordPress

I was the only person building the agency homepage, and it hasn't changed almost at all since I left.

Chili Piper - Booking App — TypeScript, React, Vite

Booking App lets you book a meeting with someone. Go ahead and book a meeting with me if you're interested in working with me

PERSONAL PROJECTS

Fiszki — TypeScript, React, Remix, PostgreSQL

Flashcards app - focused on the calendar; the better it goes with a flashcard, the less often it will be shown.

SKILLS

TypeScript advanced

HTML/CSS advanced

React advanced

Rust beginner

LANGUAGES

Polish - C2

English - C1
