

Filip Wachowiak

I'm a Full Stack JavaScript passionate. I specialize in React but I also love Python and Rust. I believe that broad knowledge makes you a better software developer and I love learning.

WORK EXPERIENCE

Blue Owl Sp. z o.o. — Web Developer

JULY 2018 - NOVEMBER 2020

My job was mainly about creating custom WordPress themes. I improved the development process with Docker [🔗](#). I've rewritten the Blue Owl website [🔗](#) from scratch using Gatsby. I left Blue Owl because I wanted to work closer to my tech stack.

Codility Ltd. — Task Creator

AUGUST 2020 - PRESENT

I'm creating recruitment tasks for aspiring software developers. I was able to create many tasks involving both frontend and backend JavaScript, CSS, HTML and Python. My job involves developing task ideas, solutions and tests. Docker is a crucial part of my work.

EDUCATION

Technical School of Communication, Poznań — IT Technician
